El equipo de Citrix Ready ha anunciado el lanzamiento de la versión 2.0 a principios de esta semana. Verifica el Link www.citrix.com/ready. La idea era sacar todas las opciones, utilizando sólo las mejores prácticas actuales de la industria, para dar al cliente una manera muy buena de mostrar las distintas soluciones de productos de socios de Citrix Ready.

El nuevo catálogo es el resultado de un esfuerzo de colaboración con los distintos socios de Citrix y trabajando en estrecha colaboración con los diseñadores de interfaz de usuario y arquitectos, para disponer de un catálogo que está repleto de nuevas características y capacidades.
