En esta ocasión mostramos el capítulo 3 sobre Citrix Profile Management 2.1, de la serie de artículos sobre esta tecnología enfocada a la gestión de perfiles, tanto en XenApp como en XenDesktop, centrándose en el proceso uso del fichero ADM en Group Policy así como en la instalación de Group Policy Management Console.

Para empezar procederemos a la descarga e instalación de Group Policy Management Console. Podremos descargarlo <u>pulsando aquí.</u> Recordemos que este Software no es compatible con Windows 2008 o superior.

Una vez descargado procederemos a la instalación de la consola,
